

26 January 1970

MEMORANDUM FOR: Stacy Hulse, DC/SB

SUBJECT: Representative Ross Adair's (R., Ind.) Query  
re KGB "Assassinations"

1. Regarding our phone conversation on the above subject on 23 January, this morning Fred Smith, of Mr. Adair's office, called to say that he had checked his files and identified several cases in which he and the Congressman were particularly interested. He described them as follows:

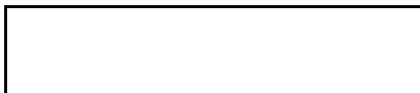

STATOTHR

2. As ranking minority member of the House Foreign Affairs Committee, Adair apparently has become interested in the extent to which the Soviets have resorted to political assassinations as a matter of policy. I realize the above information is sketchy but hopefully we can identify the cases he has in mind and tell him something about which of them appear to involve dirty work by the KGB.

3. I plan to handle this with Adair orally, so I won't need any formal papers--just some rough notes for an oral briefing will suffice.

STATINTL

JOHN M. MAURY  
Legislative Counsel
